A few minutes later they landed at an other airport.

After a short time they hear a bell rings and than they hear a mans voice that tells them the plane is hijacked. He tells that they are the Peoples Liberation Army, and that they are doing this to get two of their brothers free.

The prime minister (the wife of Carl) of the country drives to that airport to make a deal with the hijackers and to make a plan to capture the hijackers. But it isn't easy because the hijackers want their brothers back and that must be done in just 2 hour. The prisoners are too late at their destination so one passenger gets killed.

Then the hijackers ask all the passports of the hostages, but Herald knows that if they will see that Carl is the husband of the prime minister. So he put the passport of Carl into the coffee and tore it in pieces without making any sound and ate them! But later the hijackers see Carls picture in the newspaper with his name under it. They let one of the prisoners go to the airplane in exchange for 100 passengers. Then the prime minister let the plane refuels with two bushes, buy in one of them there are FBI agents in it and they throw smoke bombs into the plane and shoot the hijackers down and free the passengers.
